Projects

Autonomous Study Planner | React, Node.js, Express.js, MongoDB, JWT, RBAC

May 2026 – Jul 2026

- Architected a multi-agent AI study planning platform that generated personalized study roadmaps, adaptive schedules, diagnostic quizzes, and revision strategies based on user goals and progress.
- Established secure authentication and role-based authorization using JWT and RBAC for Student, Mentor, and Admin modules while managing study plans, tasks, and mentorship data in MongoDB.
- Delivered an interactive dashboard featuring calendar-based planning, knowledge mastery analytics, mentor–student messaging, and gamified progress tracking using React and RESTful APIs.
- Live Demo: autonomous-study-planner-client.vercel.app
- Repository Link: github.com/Amarjeetydv/autonomous_study_planner

Vehicle Fuel Protection Application | React, Node.js, Express.js, MySQL, Bootstrap

Oct 2025 – Dec 2025

- Developed a real-time fuel theft detection system with automated vehicle lock management, live fuel monitoring, and instant alert notifications for enhanced fleet security.
- Automated theft detection using MySQL triggers, stored procedures, and audit logging to identify abnormal fuel loss and maintain secure lock/unlock event history.
- Optimized fleet operations by creating RESTful APIs and an interactive dashboard for vehicle management, fuel analytics, historical records, and real-time system monitoring.
- Repository Link: github.com/Amarjeetydv/vehicle-fuel-protection-system

Achievements

- Solved 150+ data structures and algorithms problems across LeetCode and GeeksforGeeks.
- Filed a patent titled "Smart Electricity Saver for Hostel Rooms Using Motion and Presence Detection".
- Served as Class Representative during the first and second semesters of MCA.

Certificates

- | | |
|--|----------|
| • Sigma 9.0 – Apna College Link | Jul 2026 |
| • Java Programming – iamneo (An NIIT Venture) Link | Jun 2026 |
| • Hone Communication and Public Speaking Skills for Successful Career – LPU Link | Mar 2026 |
| • Advance Diploma in Full-Stack Developer – Information Technology Council Link | Mar 2024 |

Skills

Programming Languages: C++, JavaScript, Java

Technologies/Frameworks: React.js, Node.js, Express.js, MongoDB, MySQL, Bootstrap, Git, GitHub

Domain Skills: Data Structures & Algorithms, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC)

Soft Skills: Analytical Problem-Solving, Effective Communication, Collaboration, Adaptability

Education

Lovely Professional University

2025 – 2027

Master of Computer Applications — CGPA: 8.89

Jalandhar, Punjab

Doon Institute of Engineering & Technology

2022 – 2025

Bachelor of Computer Applications — Percentage: 76.15%

Rishikesh, Uttarakhand

Shri Guru Ram Rai Public School

2020 – 2022

12th with Science — Percentage: 77.67%

Bhaniyawala, Uttarakhand

Shri Guru Ram Rai Public School

2019 – 2020

10th with Science — Percentage: 84%

Rishikesh, Uttarakhand
